

Prefunction

The diagram shows a floor plan with two main areas. On the left is a rectangular area labeled 'Prefunction'. On the right is a circular area labeled 'Rotunda Room'. A horizontal line connects the right side of the Prefunction area to the left side of the Rotunda Room. The Prefunction area has four small black squares along its top and bottom edges. The Rotunda Room has a jagged, irregular border and several small rectangular shapes along its perimeter. A vertical line extends from the top of the Rotunda Room.

**Rotunda
Room**
